

# ABBAadhère

▶ **Supplement for concrete and mortar  
Adherence - Plasticity - Waterproof**

## ▶ DESTINATION

**ABBAadhère** is a liquid milky-white product which, once mixed with concrete and mortar, gives a better adherence, a better strength and becomes easier to work with.

**ABBAadhère** can be added and mixed on a basis of 1 volume for 2 to 4 volumes of water depending on the results wanted.

## ▶ SCOPE OF UTILISATION

It is advised to use **ABBAadhère** for :

Adherence between new and old concrete - Primer for smooth surfaces - Hardness of thin cement layer - Strengthening and hardening of plaster - Strengthening of waterproofing of plastering - Bedding - Cracks filling.

## ▶ PRESENTATION

**ABBAadhère** is styren-butadien resins based product, and has been specially designed to improve the characteristic of the concrete and mortar to which it is added.

- The addition of **ABBAadhère** increases the adherence of mortar on substrates such as old concrete, stones, bricks...

**ABBAadhère** increases resistance to shearing, elongating and breaking.

Concrete and mortar which have been added with **ABBAadhère** offer an excellent resistance to abrasion and cracking, as well as a better ability to resist to chemicals.

Also, **ABBAadhère** eases plastering.

### BE AWARE :

**ABBAadhère** is not compatible with "melted cement".

## ▶ HOW TO APPLY

**ABBAadhère** can be incorporated directly to concrete or mortar on a basis of 1 volume for 2 to 4 volumes of water depending on the performance wanted.

Tools can be cleaned with water.

## ▶ PACKAGING

- 2-litre bottle
- 10-litre bottle
- 25-litre drum
