

ABBAdose

Concentrated product

▶ **Against : Mosses, algae, lichen and red traces**

▶ DESTINATION

ABBAdose is a concentrated product especially designed to destroy mosses, algae, lichens... which can develop on roofs walls...

ABBAdose has been especially devised to fight against this parasite vegetation.

ABBAdose must be diluted with water on a basis of 1 litre for 25 to 50 litres of water.

▶ HOW TO USE

ABBAdose mix can be applied on a multitude of materials :

Roofs : tiles, natural slate tiles, shingles, tarred tiles, wood of any type and shape, metal or translucent tiles, domes ...

Walls : all sorts of coats, roughcasts, stone and brickworks, boardings such as : wood, metal, plastic.

Fencing : wood, metal, plastic.

Others : patios, monuments, conservatories, pathways, benches, tennis courts...

▶ PREPARATION

Shake the water while adding **ABBAdose** in order to obtain an homogeneous mix.

The obtained mix can be applied on to mosses, algae and lichens and allows to treat 125 to 250 m² according to the adapted dosage.

▶ HOW TO APPLY

Once diluted, **ABBAdose** mix can be sprayed or applied with a brush or a roll.

The surfaces onto which it is applied must be dry or only slightly damp, with no risks of rain for half a day.

In the event of large proliferation of micro-organisms, it is necessary to sweep or brush the surface before application.

▶ PACKAGING

- 2-litre bottle
- 10-litre bottle
- 25-litre drum
