

ABBA^{lu}

Ready-to-use product

▶ **Cleans aluminium surfaces**

▶ DESTINATION

ABBA^{lu} is a product designed to clean aluminium construction structures which have been soiled by bad weather and pollution.

ABBA^{lu} is specially designed for aluminium surfaces (even anodised).

ABBA^{lu} gives back a clean finish thanks to its cleaning and oxidation eliminating actions.

ABBA^{lu} can be applied with a brush on a basis of 6 to 8 m² per litre.

▶ PRESENTATION

ABBA^{lu} is an translucent, slightly viscous, aqueous product.

ABBA^{lu} allows a quick cleaning of materials.

Once applied, **ABBA^{lu}** lifts dirt and oxidation which can be easily rinsed off.

▶ HOW TO APPLY

ABBA^{lu} can easily be applied with a brush or a damp sponge, ensuring an even coverage of the surface to be cleaned.

Leave **ABBA^{lu}** on for about 5 to 10 minutes.

Continue to rinse off with a wet sponge or a soft brush together with a scrubbing action in order to get rid of all the dirt.

Finish by wiping off with a dry cloth.

WARNING : Before applying **ABBA^{lu}** make sure to protect all other surrounding materials (glass, paint, plastic, etc...).

▶ PACKAGING

- 2-litre bottle
- 10-litre bottle
- 25-litre drum
