

ABBAMur Plus

Ready-to-use product

▶ Anti-saltpetre and anti-humidity treatment

▶ DESTINATION

ABBAMur Plus is designed to combat saltpetre and humidity.

ABBAMur Plus is very easy to use and its triple action results in the following :

- destruction of bacteria and cryptogams
- reformation of stone
- restructure and firm up of the surface

ABBAMur Plus can be applied with a brush on a basis of 2 to 6 m² depending on the porosity of the surface.

▶ SCOPE OF USAGE

ABBAMur Plus can be easily used on most vertical mineral surfaces such as concrete, mortar, rendering, terracotta, brickwork, fibrocement, etc...

▶ PRESENTATION

ABBAMur Plus is an aqueous milky-white product.

ABBAMur Plus does not colour the surface once dry.

ABBAMur Plus is dust-free after 2 hours and dry after 24 hours.

It is advised to use **ABBAMur Plus** on older walls before decorating (wall paper, paint,...)

For a complete and durable treatment, it is advised to use first **ABBAMur** as a saltpetre treatment. **(Guarantee available, consult our Technical Service)**

▶ HOW TO APPLY

ABBAMur Plus can be applied with a brush or a roll.

It is important to brush off the saltpetre by hand prior to the application of **ABBAMur Plus**.

For an optimum result, it is advised to apply 2 coats with a time space of 24 hours between the two, the first coat will be diluted with 10% to 20% of water and the second one will be neat.

▶ PACKAGING

- 2-litre bottle
- 10-litre bottle
- 25-litre drum
