

# ABBAprim

Read-to-use product

► **Impregnator for plasters, plaster boards,  
Stabiliser for chalky surfaces.**

## DESTINATION

**ABBAprim** is designed to saturate plasters, plasterboards or chalky surfaces in order to harden them before painting.

**ABBAprim** also offers a primer function for a better adherence of paint or wall paper as well as floor or wall tiles.

**ABBAprim** waterproofs the surfaces onto which it is applied.

**ABBAprim** can easily be applied by brush, roll or paint gun on a basis of 1 litre to 4 to 6m<sup>2</sup>.

## PRESENTATION

**ABBAprim** is a milky-white product, being specially formulated with synthetic resins with high moistening power.

**ABBAprim** becomes transparent once dry and it does not modify the aspect of the surfaces onto which it has been applied.

The high power of **ABBAprim** is suitable to stabilise chalky surfaces with its homogeneous and in-depth action.

**ABBAprim** is a quality primer for paint, wall paper, floor and wall tiles.

## HOW TO APPLY

**ABBAprim** must be applied onto clean and dry surfaces, free from micro-organisms contamination (in which case it is advised to use **ABBAClean** prior to using **ABBAprim**).

**ABBAprim** is very easy to use and can be applied with a brush, roll or paint gun in one single thin coat.

In the case of high absorption of the product by the surface, or if the surface is very chalky, a second application might be necessary. Allow 2 hours between applications.

Once the surface has been treated with **ABBAprim**, it is ready to receive any kind of decoration coating.

Avoid projection on the surfaces which are not meant for treatment (glass, metals, plastics...) and protect them during the application. In the case of accidental projection, wipe off the product with a cloth or sponge and water before it dries.

*\* If unsure about the compatibility between **ABBAprim** and the decoration coating, please contact our Technical Service who can undertake a test in accordance with your requirements.*

## PACKAGING

Buckets : - 5 Kg  
- 25 Kg
