BIODEGRADABLE  
SOLUTION

# ABBAsol

## Patios

Ready-to-use  
FOR DECONTAMINATION OF PATIOS

► **Against : MOSSES-ALGAE-LICHENS ...  
... and environment friendly .**

Enregistrement 9313  
Directive biocide 98/8-CEE

### ► DESTINATION

**ABBAsol** is designed to keep exterior patios clean by way of decontamination . **ABBAsol** 's action may be slow, it acts on mosses, algae and lichens without any harm on the surfaces . **ABBAsol** is based fungicide, bactericide and algicide vegetable-based active principle

**ABBAsol** is very easy to use, it's designed to clean and preserve all types of tile materials .

**ABBAsol** can be sprayed or applied with a brush on a basis of 1 litre for 5 m<sup>2</sup> ; it acts on the surfaces onto which it is applied and it also leads to a phenomenon of self-cleaning .

## ► SCOPE OF USAGE

**ABBAzol** does not present any danger for the materials and surfaces whatsoever; it presents a wide scope of usage :

- Natural or tinted concrete
- Natural or processed stones
- Pebbles or granite finished materials
- Paving stones
- Terracotta
- Ceramic tiles
- Wood
- Plastics ...

## ► PRESENTATION

**ABBAzol** is an aqueous product free of any harmful components for the materials and the surfaces and with no risk of ulterior side effects if applied under normal conditions . **ABBAzol** does not contain any aggressive components and its biological action is simple and with no side effects on the surfaces treated .

It is strongly advised to apply **ABBAzol** after a thorough mechanical cleaning of the patios (high pressure, brushing,...) in order to decontaminate the surface in depth thanks to its highly penetrating power .

Futhermore, **ABBAzol** may be followed by a complementary treatment such as **ABBAzol Waterproof** or **ABBAzol Water-Oilproofing** for an invisible renewable protection, see notice .

## ► HOW TO APPLY

**ABBAzol** must always be applied onto wet surfaces in order to make the most of its extraordinary penetrating power which brings an in-depth action .

**ABBAzol** can easily be applied with a spray, brush or roll .

If the surface has not been previously cleaned before the application of **ABBAzol**, it is advised to brush the surface after application with a mix containing 1 part of **ABBAzol** with 9 parts water .

**ABBAzol** must be applied onto to dry or slightly damp surfaces (damp with morning dew) and out of risk of rain for half a day

**ABBAzol** must be left on the surfaces for at least 24 hours and up to 4 days maximum .

**ABBAzol** can then be rinsed off with the help of a water with high enough pressure to eliminate the parasite vegetation .

## ► PACKAGING

- 2-litre bottle (for approximately 10 m<sup>2</sup>)
- 10-litre bottle (for approximately 50 m<sup>2</sup>)
- 25-litre drum (for approximately 125 m<sup>2</sup>)
