

ABBAspid

► Special quick setting water-proofing cement

► DESTINATION

ABBAspid is a special quick setting water-proofing cement.

ABBAspid is easy and ready to use.

Once prepared, **ABBAspid** offers a good adherence onto traditional building materials.

ABBAspid allows to cover 2 to 3 m² for 1 kg of **ABBAspid** cement.

► SCOPE OF USAGE

ABBAspid can be applied onto surfaces such as concrete, rendering, stone, work, brickwork, etc.. for :

- Quick setting
- Water blocking
- Cisterns
- Cellars; walls
- Waterproof cement for reservoirs
- Touch ups
- Holes

► HOW TO APPLY

ABBAspid must be applied onto clean and stable surfaces. **ABBAspid** first setting is very quick : approximately 3 to 4 minutes in the case of usage as a hard paste. This characteristic allows you to only prepare what will be need for the application before the start of the work. It is not possible to re-mix with water an already set mixture.

ABBAspid needs to be vigorously stirred and it must be applied before the mixture starts setting. It is not possible to modify **ABBAspid** once it is applied.

Application examples :

- Water blocking
 - Open up a hole in a dovetail
 - Mix **ABBAspid** with 20% to 30% of water in order to obtain a dry and elastic mix.
 - Force the mix into the hole and hold it in place for a few minutes.
- Water-proof coating
 - Mix **ABBAspid** with water in order to obtain a thick and smooth paint.
 - Apply without delay with a brush or a paste gun.
 - For a better result, it is advised that the surface is slightly damp.

ABBAspid can be painted over once set.

WARNING : Never add water to a mix once the set has started.

► PACKAGING

- 10-kg Buckets
