

ABBAzinc

Ready-to-use product

▶ Stripper for zinc welding

DESTINATION

ABBAzinc is a specific product designed to strip zinc before welding.

ABBAzinc is a great substitute for classic procedures such as salt spirit, welding paste, hydrochloric acid,...

ABBAzinc does not smoke.

PRESENTATION

ABBAzinc is a yellow-coloured acidic emulsion.

HOW TO APPLY

ABBAzinc must be applied with a brush in an even manner on the surfaces to be welded.

On new zinc, **ABBAzinc** can be applied directly without any other preparation.

On the contrary, on older zinc, it is sometimes necessary to scrape the surface before carrying out the welding. Finally, clean to welding with a sponge and water in order to eliminate the excess of product and black traces.
